Copper Stock vs Orders in Hand

Nungwon shipments NW-260917E + NW-261006A (both still at sea on 05-Nov-2026) against seven open purchase orders. Delivered quantities are excluded - only undelivered balances count as in hand. A figure in brackets is a SHORTAGE.

NOTES

1. Quantities are UNDELIVERED balances. Delivered and excluded: KUMEX SK-70 34,620.250 KWD on four invoices (SI10-0066683, -0067258, -0068568, -0068682), First Group SI10-0068207 27,280.000 KWD, UES SI10-0068680 8,181.250 KWD. All went out of old stock before these shipments land.
2. SHORTAGES after all seven orders: 1-1/8" x 0.065" K short 308 pcs, 1/4" coil short 130 pcs, 1-3/8" x 0.065" K short 46 pcs, 1-3/8" x 0.050" L short 19 pcs, 1-5/8" x 0.072" K short 7 pcs. None of the Type L sizes above 7/8" are in either shipment.
3. KUMEX SK-70 carries a printed "Less: Special Discount 15%" line that is BLANK, with the grand-total line also blank. The amount in words equals the undiscounted 101,133.750. 15,170.062 KWD is unresolved and 34,620.250 has already been invoiced at full price. Get it confirmed in writing.
4. SK-70 invoice SI10-0066683 billed 1-3/8" x 0.055" L at 35.000 where the PO says 1-3/8" x 0.050" L at 40.000 - wrong wall and 220.000 KWD under-billed on 44 pcs.
5. Type L supplied against Type K lines on SK-70 at the K price: 1/2" x 0.035" L (39 pcs), 5/8" x 0.040" L (140 pcs), 3/4" x 0.042" L (110 pcs). SK-70 clauses 6 and 7 require ASTM B280 for R-410A and a working pressure above 500 PSI; Type L is the thinner wall.
6. SK-70 clause 4: the PO is valid only subject to material approval by PAHW and the consultant, and clause 5 requires approval with no notes and no additional cost. Mill certificates from Nungwon will be needed for the submittal.
7. Invoice SI10-0068635 of 4,450.500 KWD (31-Oct-2026) quotes PO SK-240-3000-21, which is not in this workbook. It is NOT deducted from SK-70. Send that PO and it will be added.
8. Several invoices carry CRANE / Korea material where the PO specifies NWM; UES and SK-70 both restrict the manufacturer. Get the equivalence approved in writing.
9. "Other items" are the Muller USA fittings on AL-ESSA and SNC 26/1073 and the 1/4" coil on KUMEX - not Nungwon supply. AL-ESSA is net of its 544.650 discount. Piece counts and weights cover copper tube only.
10. Opening warehouse stock assumed nil. Weights for the 1/4" coil and the 1-3/8" x 0.050" L are calculated, not invoiced.

Quantities Only - Pieces

Incoming pieces less the undelivered quantity on each purchase order. Brackets mean short.
