Copper Purchase vs Warehouse Receipt - Summary

Fawaz Trading & Engineering Services - Trading Division, Copper and Spare Parts. 10-11-2026. Source: Copy_of_copper_sheet_Sheet_up_to_date.xlsx, sheet "Working". All weights in metric tonnes.

Three-year totals			
Actual purchase, 2024-2026 (MT)	445.276		23 purchase orders
Actual receipt in the warehouse (MT)	397.713		what physically landed
Still at sea, not yet received (MT)	47.563		2 shipments, 11,542 pcs
Factories supplying (count)	3.000		Nungwon, Toan Phat, Mueller
Purchase average per year (MT)	148.425		2026 is 10.3 months only
Receipt average per year (MT)	132.571		2026 is 10.3 months only
Year by year			
2024 - purchased / received (MT)	192.428	107.146	9 POs placed, the first 5 landed in 2024
2025 - purchased / received (MT)	130.032	162.404	purchases fell 32%, receipts peaked
2026 to date - purchased / received (MT)	122.816	128.163	47.563 MT of it still at sea
Ordered but not received			
Mueller Middle East, under progress (MT)	14.000		marked "will receive 2026"
Nungwon FTE/NWM/2026-11, under progress (MT)	22.640		lands about 22-02-2027
Nungwon, planned 22-11-2026 (MT)	22.000		not placed yet
Against consumption			
Yearly consumption per copper_master (MT)	109.792		9.15 MT per month
Average receipt less consumption (MT/yr)	22.779		stock has been building up - see note 9

NOTES

1. Purchase year is the date on the purchase order. Receipt year is the "note" column of the source sheet ("Received 2025", "Received 2026").
2. The two columns differ because of the 3.5-month lead time (1.5 manufacturing + 2.0 at sea). A PO placed in October or later lands the following year, so purchases and receipts never match inside one year.
3. CORRECTION: the source sheet marks PO-100079029 (23.659 MT) and PO-100079463 (23.904 MT) as "Received 2026", but these are shipments NW-260917E and NW-261006A, both still at sea on 05-Nov-2026 per copper_stock_vs_orders.xlsx - 6,091 + 5,451 = 11,542 pcs and 47,563 kg, which matches the two POs exactly. They are shown here as in transit, NOT as received. Receipts for 2026 are 47.563 MT lower than the source sheet implies.
4. CONFIRMED: the first five orders - PO-100053275, PO-100055444, PO-100056642, PO-100056541 and PO-100058776, 107.146 MT - were received in 2024. They carry no note in the source sheet; the receipt year is confirmed by the buyer and is consistent with the lead time, since every PO from October 2024 onward carries a "Received 2025" note.
5. In transit at 01-01-2024 is assumed nil. The source sheet starts at January 2024, so any 2023 purchase that landed in 2024 is not in the file and 2024 receipts may be understated.
6. The source sheet types "Total 2025" as 130 and "Total 2026" as 181.46. The true sums are 130.032 and 181.456. Only "Total 2024" is a live formula.
7. The "Working (2)" sheet disagrees with "Working" on the two Toan Phat orders: PO-100056541 is 21.653 MT / 5,237 pcs dated 12-05-2024 there against 21.600 MT / 5,222 pcs dated 15-05-2024, and PO-100062435 is 20.967 against 20.900 MT. "Working" is used here. That sheet is also headed "2021 till to Date" while it only holds 2024 and 2025.
8. The Nungwon order under progress is 4,647 pcs / 22.640 MT in the source sheet, but the issued order in this folder (nungwon_order_23mt, ref FTE/NWM/2026-11 of 08-11-2026) is 4,897 pcs / 23.400 MT. The source figure is kept above; update it to 23.400 once the proforma is confirmed.
9. Receipts average 132.571 MT a year against 109.792 MT of yearly consumption - about 22.8 MT a year more landing than selling. Either consumption is understated or stock is accumulating. Worth checking against the warehouse count.
10. The local purchase of 8.000 MT has no purchase order, no date and no piece count in the source sheet. It is not factory supply and is shown on its own line in 3-By Factory.
11. Three factories supply the tube - Nungwon Metal Ind. (Korea), Toan Phat Copper Tube (Vietnam) and Mueller Middle East. Nungwon is 86% of three years of purchasing, Toan Phat 12%. Mueller is the newest and has nothing received against it yet.
12. Mueller Middle East, 14.000 MT, is marked "will receive 2026" but does not appear in the stock or transit figures of copper_stock_vs_orders.xlsx. Confirm the shipping date - 7 weeks of the year are left.

Actual Purchase and Actual Warehouse Receipt, by Year

Purchase is counted on the purchase order date. Receipt is counted in the year the material was taken into the warehouse. The gap is material at sea across the year end.

Year	ACTUAL PURCHASE POs	ACTUAL PURCHASE Pieces	ACTUAL PURCHASE MT	ACTUAL RECEIPT Shipments	ACTUAL RECEIPT Pieces	ACTUAL RECEIPT MT	Receipt less Purchase (MT)	Comment
2024	9	47,249	192.428	5	25,436	107.146	(85.282)	The first 5 POs landed in 2024; 85.282 MT crossed into 2025
2025	8	30,357	130.032	8	38,731	162.404	32.372	Purchases cut to 130 MT, but 85.282 MT arrived from 2024
2026	6	27,338	122.816	8	29,235	128.163	5.347	To 10-Nov. 47.563 MT is still at sea, not received
TOTAL	**23**	**104,944**	**445.276**	**21**	**93,402**	**397.713**	**(47.563)**	**The 47.563 MT difference is the two shipments at sea**

HOW THE TWO COLUMNS RECONCILE

Year	In transit 1 Jan (MT)	Purchased in year (MT)		Received in year (MT)	In transit 31 Dec (MT)	Check		Basis
2024	0.000	192.428	less	107.146	85.282	OK		opening + purchased - received = closing
2025	85.282	130.032	less	162.404	52.910	OK		opening + purchased - received = closing
2026	52.910	122.816	less	128.163	47.563	OK		opening + purchased - received = closing

PURCHASED OR PLANNED, NOT YET IN THE WAREHOUSE

Status	Supplier	Date	Pieces	MT	Expected			Note
In transit	Nungwon Meta	10-08-2026	6,091	23.659	Landing now			Shipment NW-260917E, at sea 05-Nov-2026
In transit	Nungwon Meta	25-08-2026	5,451	23.904	Landing now			Shipment NW-261006A, at sea 05-Nov-2026
Under progre	Mueller Middle	02-10-2026	3,352	14.000	2026			Not in the stock or transit file - confirm
Under progre	Nungwon Meta	08-11-2026	4,647	22.640	2027			Issued order says 4,897 pcs / 23.400 MT
Planned	Nungwon Meta	22-11-2026		22.000	2027			Not placed yet
TOTAL			**19,541**	**106.203**				**47.563 MT at sea + 58.640 MT ordered or planned**

NOTES

1. Pieces exclude the 8.000 MT local purchase and the planned order, which carry no piece count in the source sheet.
2. PO-100079029 and PO-100079463 are shown as in transit, not received, because copper_stock_vs_orders.xlsx has both shipments at sea on 05-Nov-2026. The source sheet notes them "Received 2026".
3. In transit at 01-01-2024 is assumed nil; the source sheet begins in January 2024.
4. The first five orders, 107.146 MT, were received in 2024 - confirmed by the buyer. They carry no note in the source sheet.

Every Purchase Order, Purchase Year against Receipt Year

23 placed orders plus 3 in the pipeline. The last two columns are the ones added to the source sheet: where each order falls on the purchase side and where it falls on the receipt side.

#	PO #	Supplier	PO date	Pieces	Weight (MT)	Purchase year	Receipt year	Status	Reference / note
Purchased in 2024									
1	PO-100053275	Nungwon Metal Ind. Co., Ltd.	16-01-2024	4,640	20.996	2024	2024	Received

26	Planned	Nungwon Metal Ind. Co., Ltd.	22-11-2026		22.000	-	-	Not received	will receive 2027
	GRAND TOTAL - placed orders			**104,944**	**445.276**				**Pipeline above is extra**

NOTES

1. Amber rows are not in the warehouse.
2. Receipt year comes from the "note" column of the source sheet, except the two shipments at sea, which the stock file contradicts - see 0-Summary note 3.
3. The five 2024 rows with no note were received in 2024 - confirmed by the buyer.

Purchase and Receipt by Factory - Three Factories

Nungwon (Korea), Toan Phat (Vietnam) and Mueller Middle East. The 8.000 MT local purchase is not factory supply and is listed on its own.

Factory	Year	POs	Purchased (MT)	Received (MT)	Ordered, not yet received (MT)	Share of year's purchase	Comment
2024							
Nungwon Metal Ind. Co., Ltd.	2024	7	149.928	85.546		77.9%	7 orders, one about every 7 weeks
Toan Phat Copper Tube JSC	2024	2	42.500	21.600		22.1%	2 orders, 22% of the year
Mueller Middle East	2024						Not used this year
Total 2024	**2024**	**9**	**192.428**	**107.146**	**85.282**	**100.0%**	**Received includes material ordered the year before**
2025							
Nungwon Metal Ind. Co., Ltd.	2025	7	119.032	141.504		91.5%	7 orders but smaller - two under 10 MT
Toan Phat Copper Tube JSC	2025	1	11.000	20.900		8.5%	1 order, the last one placed with them
Mueller Middle East	2025						Not used this year
Total 2025	**2025**	**8**	**130.032**	**162.404**	**52.910**	**100.0%**	**Received includes material ordered the year before**
2026							
Nungwon Metal Ind. Co., Ltd.	2026	5	114.816	109.163	92.203	93.5%	5 orders; 47.563 MT of them still at sea
Toan Phat Copper Tube JSC	2026			11.000			No new order; 11.000 MT landed from the 2025 order
Mueller Middle East	2026				14.000		First order - 14.000 MT under progress, nothing received
Local purchase	2026	1	8.000	8.000		6.5%	No PO, date or piece count in the source
Total 2026	**2026**	**6**	**122.816**	**128.163**	**106.203**	**100.0%**	**Received includes material ordered the year before**
Three years together							
Nungwon Metal Ind. Co., Ltd.	2024-26	19	383.776	336.213	92.203	86.2%	86% of the programme. 47.563 MT at sea + 44.640 MT ordered or planned
Toan Phat Copper Tube JSC	2024-26	3	53.500	53.500		12.0%	12%. Everything ordered has landed. Nothing since 10-11-2025
Mueller Middle East	2024-26				14.000		New source. 14.000 MT ordered, nothing received yet
Local purchase	2024-26	1	8.000	8.000		1.8%	Bought and received inside 2026
GRAND TOTAL	**2024-26**	**23**	**445.276**	**397.713**	**106.203**	**100.0%**	**Purchased = received + at sea. Pipeline is on top of it**

NOTES

1. Three factories supply the tube: Nungwon Metal Ind. (Korea), Toan Phat Copper Tube (Vietnam) and Mueller Middle East. Mueller is the newest - its first order, 14.000 MT of 02-10-2026, is still under progress with nothing received against it, so it shows purchase and receipt of nil and 14.000 MT in the waiting column.
2. "Purchased" counts placed purchase orders only. "Ordered, not yet received" holds the two Nungwon shipments at sea (47.563 MT), the Mueller order (14.000 MT), the Nungwon order under progress (22.640 MT) and the Nungwon order planned for 22-11-2026 (22.000 MT).
3. The 8.000 MT local purchase is not factory supply. It is kept in the totals because it was bought and received, but it is shown on its own line.
4. Toan Phat weights follow the "Working" sheet and total 53.500 MT. The "Working (2)" sheet totals 53.620 MT for the same three orders - see 0-Summary note 7.
5. Nungwon is 86% of three years of purchasing. Toan Phat has not been given an order since 10-11-2025, and the Mueller order is the first move to spread that.
