Copper Purchase Price - Yearly Average per Tonne

Fawaz Trading & Engineering Services - Trading Division, Copper and Spare Parts. US dollars per metric tonne. Price = LME + fabrication. Fabrication 1,600 $/t Nungwon, 700 $/t Toan Phat. Averages weighted by tonnage.

Year	Orders	Tonnes	Average LME ($/t)	Fabrication ($/t)	PRICE FOB LME + Fab ($/t)	Customs 5% ($/t)	WITH CUSTOMS ($/t)	Simple average LME ($/t)
2021	9	123.859	9,666	1,600	11,266	563	11,829	9,833
2022	9	189.602	9,112	1,505	10,618	531	11,149	9,131
2023	7	125.659	8,452	1,289	9,740	487	10,227	8,453
2024	9	192.548	9,390	1,401	10,791	540	11,331	9,391
2025	8	130.032	9,834	1,524	11,358	568	11,926	10,133
2026	5	114.816	12,945	1,600	14,545	727	15,272	12,909
2021-26	**47**	**876.516**	**9,766**	**1,480**	**11,246**	**562**	**11,808**	**9,787**

YEAR ON YEAR

Year	LME ($/t)	Change	%	Price FOB ($/t)	Change	%		Comment
2021	9,666			11,266				First year on the sheet
2022	9,112	(554)	-5.7%	10,618	(648)	-5.8%		LME eased through the year - cheapest buying of the six
2023	8,452	(661)	-7.3%	9,740	(878)	-8.3%		The low point of the six years
2024	9,390	939	11.1%	10,791	1,051	10.8%		LME turns back up
2025	9,834	444	4.7%	11,358	567	5.3%		Climbing hard in the last quarter - 11,437 in December
2026	12,945	3,110	31.6%	14,545	3,186	28.1%		14,250 on the August order, the highest on the sheet

NOTES

1. Price is FOB: LME plus fabrication. Freight and insurance are NOT in it - the landed cost in copper_cost_comparison adds those before customs.
2. Customs of 5% is shown in its own column and in the "with customs" column, so the figure can be used either way. On an import into Kuwait it is normally payable, so the right column for a landed comparison is "with customs"; for comparing what the factory charged, use "price FOB".
3. Toan Phat carries no LME in the source sheet. The six Toan Phat orders are priced off the Nungwon LME curve on the same date - one is an exact date match, the other five are read between the two nearest Nungwon orders. Those cells are yellow in 2-Order Detail. Overwrite them with the real figures and every average follows.
4. The source sheet's "Total 2024" of 128.589 MT leaves out PO-100063079 (21.339 MT); the seven orders listed come to 149.928 MT. "2021 till to Date" carries the same error - 738.121 against 759.460 MT. The correct figures are used here.
5. Averages are weighted by tonnage. The simple average of the LME figures is in the last column and runs higher, because the small orders were placed when copper was dear.

Yearly Average Price by Factory

Nungwon pays 1,600 $/t fabrication, Toan Phat 700 $/t. Toan Phat LME is read off the Nungwon curve - see 0-Yearly Average note 3.
